LAB 06

1. Open the Life workbook and save it as **Life Managers Nutrition Table**. In the Documentation sheet, enter your name in cell B3 and the date in cell B4.
2. Fat contains nine calories per gram. In the Meal Planner worksheet, add a column that calculates the calories from fat for (Grams of fat * 9). The percentage of fat is calculated by dividing the calories from fat by the total number of calories. Enter these calculated values into the table.
3. Display all calories and grams of fat values in one decimal place. Display the fat percentages as percentages with one decimal place.
4. Design the rest of the Meal Planner worksheet as you'd like, but be sure to include at least one example of each of the following design elements:
    - A range merged into a single cell
    - Text centered and rotated within a cell
    - Cell styles applied to one or more elements
    - Border line styles applied to one or more elements
5. Apply a rule to the fat percentages to highlight those food items that exceed 30% of the total calories. Include a legend to document the highlighted color you used.
6. Add data bars to the display of calories from fat values to graphically show the relative amounts of fat calories for different food items.
7. Add descriptive headers and footers to the printed document (Header – your name; Footer – page number).
8. Use **Excel's built-in AI (Analyze Data feature)** to generate **key insights** about calorie distribution, fat percentages, or trends in the dataset.
9. Summarize any **notable patterns or anomalies** in a separate section.

	A	B	C	D	E	F	G
1	**Life Managers**						
2				High	*Fat percentage above FDA recommendations*		
3	**Food Nutrition Chart**						
4	Category	Food	Servings Size	Calories	Grams of Fat	Calories From Fat	Fat Percentage
5	Beef	Porterhouse Steak	4 ounces	445.0	37.6	338.4	76.0%
6		Round Steak	4 ounce	265.0	15.0	135.0	50.9%
7		Sirloin Steak, lean	4 ounces	229.0	9.1	81.9	35.8%
8		Tenderloin Steak or Roast	1 ounce	80.2	6.5	58.5	72.9%
9		Bagel, plain	1 bagel	320.0	1.0	9.0	2.8%
10		Bagel, cinnamon raisin	1 bagel	350.0	2.0	18.0	5.1%
11		Bread, French and Sourdough	1 slice (1 ounce)	88.0	1.0	9.0	10.2%
12		Pita Bread, white, whole wheat	1 (6.5" dia)	150.0	2.0	18.0	12.0%
13	Cereal	Cheerios	1 cup	109.5	1.8	16.2	14.8%
14		Corn Flakes	1 cup	100.0	0.2	1.8	1.8%
15		Frosted Flakes	3/4 cup	119.2	0.2	1.8	1.5%
16		Raisin Bran	1 cup	186.0	1.5	13.5	7.3%
17		Shredded Wheat	2 biscuits	156.4	0.6	5.4	3.5%
18	Cheese	America, processed	1 ounce	106.0	9.0	81.0	76.4%
19		Blue Cheese, Danish	1 ounce	100.0	8.1	72.9	72.9%
20		Brie	1 ounce	85.0	7.0	63.0	74.1%
21		Camembert	1 ounce	122.0	11.9	107.1	87.8%
22		Cream Cheese	1 ounce	65.0	5.0	45.0	69.2%
23		Parmesan Cheese	1 ounce	111.0	7.3	65.7	59.2%
24		Swiss	1 ounce	100.0	7.0	63.0	63.0%
