LAB 09

1. Save the presentation as **Animal Rescue Last First Name**.
2. Select the desired theme. Change the layout of the first slide to a **Title** slide.
3. On the title slide, insert **clip art** of a dog or veterinary office or another subject that relates to the presentation. Position the clip art in the gray column and resize it until it spans the width of the gray column. Increase the font size of the words "Feral Dogs" to 32.
4. In Slide 2, add the *speaker's note*: **"Mention that community groups include ethnic neighborhood councils, religious organizations, and civic groups"**.
5. Change the layout of Slide 2 to the **Two Content** layout. Move the bullet points to the right. Insert the image **dog.jpg** on the left. Position and resize it to fill the content area.
6. Change the title of Slide 3 to "Overpopulation".
7. On Slide 4, demote bullets 2 and 3 ("Extra food…" and "Food left outdoors…") to sub bullets of bullet 1. Insert the image **dog2.jpg** on Slide 4, and resize as appropriate.
8. Following Slide 5, add a new slide with the **Title and Content** layout. Insert the Continuous Block Process Smart Art. Change the colors of the SmartArt to your choice. Title the slide **Trap-Neuter-Release Strategy**. Add the following 5 points:
   Locate Feral Colony
   Trap Feral Dogs
   Spay/Neuter & Vaccinate
   Release
   Cycle of Overpopulation Ends
9. Following Slide 6, add a new slide with the **Content with Caption** layout. Title the slide **Feral Colonies** and add the caption **Neighborhoods Reached with the Trap-Neuter-Release Strategy**. Insert a table with the following data. Center the columns containing the yearly data. Select the table design of your choice.

Neighborhood	**2024**	**2025**	**2026**
Downtown	2	3	3
Riverside	0	1	2
SoRi	2	4	1
Wonderland	3	4	0

10. Add the words **Animal Rescue League – Your First and Last Name** as footer to your presentation. The footer should not appear on the title slide.
11. Embed a **QR code** on the last slide linking to an interactive sign-up form for volunteering.
12. Add **live captions and subtitles** to the presentation to improve accessibility and make it more inclusive for diverse audiences.
